1 The Barcade Tabletop Arcade

Caution: Barcade's library of 4,500 classic games—housed in a desktop cabinet—turns grown men into twitchy, grunting apes.

Which is perfectly OK, since even gorilla thumbs fit comfortably on the checker-size buttons. And simian hits like Rampage and Donkey Kong are enough to satisfy anyone's inner primate.

2 Leica M3

In Andy Warhol's era, Leica's 35mm original was the choice for wealthy artists. At 2.1 megapixels, the new palm-size digital M3 isn't pro quality, but it retains its forebear's stylish, classic design. It looks so authentic, women might just fall for the line, "I'm gonna make you famous."

3 Transformers 20th Anniversary Edition

Screw Bambi's mom. When Optimus Prime bought the farm in *The Transformers: The Movie*, little-boy tears flowed like the Nile. Now Hasbro has done what years of therapy couldn't: bring Optimus back ... bigger and with more weapons.
